

SCOTTISH MOTOR SPORTS - REPRESENTING TWO WHEEL AND FOUR WHEEL MOTORSPORT IN SCOTLAND - LAUNCH AT INGLISTON

SMS has gained significant funding through SportScotland to take on 2 Motorsport Development staff - a Manager and a Development Officer - with funding planned for 4 years. This follows on from the successful presentation of a Development Strategy to SportScotland. The new strategy was launched at Ingliston near Edinburgh with several highly respected Scottish Motor Sport stars. Sir Jackie Stewart gave a very interesting speech on his career in motorsport and welcomed the development of our stars for the future. This is a very important step forward in the development of Motorsport in Scotland with recognition of the high level at which Scots are represented in World class events - from F1 and World Rally Championships to 2 wheel sport at all levels. Scotland has a rich heritage of motorsport achievement - and this will help ensure it develops for the future. The Chief Exec of SportScotland Stewart Harris was present to discuss the contribution of motorsport and how it is hoped it will be developed over many years to come.
