Tyre Supply Issues

We have been informed by Neil Daniel of Craigstone Tyres, supplier of tyre services at Scottish Road race meetings that there are issues with the supply of tyres for in particular classes with tyre restrictions, namely CB500 and Junior Sport 300.

After discussing the matter the Road Race Committee have given dispensation for the rest of the 2026 season for the CB500 class to run on any treaded tyre and the Junior Sport 300 to run on any tyre including slicks.

This is not an ideal situation, the feeling is that if the tyre rules were not relaxed we would find ourselves in a position where competitors were unable to race due to the unavailability of tyres. The tyre issue going forward will be revisited at the end of the 2026 season.

Yours in sport

Jimmy Shanks
Chairman
SACU Road Race Committee
