11th April 2018

Dear Club Secretary/Committee Member

BULLETIN NUMBER 02/2018

2018 One Event Licence Forms

For 2018 we have had to update our One Event Licence forms following guidance from our insurer. The new form contains the GDPR based SACU Privacy Notice and there is a change to the medical conditions. OEL's are only available for Off Road events.

If a rider indicates they have a pre-existing medical condition they will not be able to take out an OEL and will need to contact the SACU office 2 weeks before the event to allow the office time to contact their doctor if required.

It is suggested that entry forms allowing OEL's may be modified to allow riders time to contact the office. The forms are attached and will also be available on the website. Riders can be sent one event licence application forms with the event entry.

The One Event Licence is available to clubs for off road events as it has been agreed with the insurer. One of the conditions of issuing one event licences is that the rider must be a member of an SACU club. This can be a day licence or a full club membership – it is up to the club to choose the cost of club membership.

Secretaries are reminded that they should ensure the forms are completed – the medical declaration is essential and the licence is invalid if it is not completed.

Please contact the office if you have any queries on the forms.

Yours in Sport

Charles Mackenzie

SACU Office Manager
