CLASSES. The entry for the competition will be divided into classes, details of which will be shown in the Supplementary Regulations.

- 1 All riders must have read the SACU Standing Regulations and ACU National Sporting Code.
- 2 **MOTOR CYCLES.** For events using public roads the machine must comply at all time with all legal requirements including a minimum of third party insurance for the duration of the entire event.
- 3 **CONTROL OF EXHAUST NOISE.** The sound level of a machine must be controlled according to procedures and limits described in the Standing Regulations of the ACU handbook. Machines failing the initial test may be re-presented. Failure of the second test will prohibit the machine from entering the event.
- 4 **TYRES.** Any restrictions on the types of tyres to be used will be detailed in the Supplementary Regulations. Inner tubes may be changed anywhere on the course except the Parc Ferme, but tyres may be changed only in an official work area prior to the start of the day – or at the final check of a day between the white and yellow flags. Wheels may not be changed.
- 5 **MUDGUARDS.** Mudguards must comply with current dimensions described in the Standing Regulations of the ACU handbook.
- 6 **PRELIMINARY EXAMINATION.** Machines and clothing will be examined **before the start to ensure compliance with the Standing Regulations and ACU Technical specifications** and organisers may mark or seal certain parts of the machine. Details to be given in the Supplementary Regulations. Drivers may not change any marked or sealed part. Drivers only may work on their machines during the event. Repairs to machines carried out on the course must be effected only with tools carried on the machine or by the rider. Helmets bearing the appropriate ACU, Gold or Silver stamp must be worn throughout the event. Any protest against the Machine Examiners decision must be made immediately through the Clerk of the Course. A further examination will be carried out at the end of the event or ensure any marked or sealed parts are intact.

Motorcycle helmets bearing a valid ACU gold or silver stamp and correctly fitted, must be worn by all competitors. Unless the helmet is manufactured with the camera as an intrinsic part, helmet cameras (including the helmet camera brackets) and cameras attached to the body are prohibited. Cameras attached to the machine are permitted.

- 7 **CLOSED CONTROL.** When motorcycles have been examined the organisers may require them to be placed in a closed control. This control shall be clearly defined and access to the control is limited to Stewards, Clerk of the Course and Officials in charge of the area. Drivers may enter only to deposit or collect their machines. A driver may not touch any machine in the Closed Control. They may not start their machine nor may they work on or refuel their machine.
