

Changes to SACU Formula 600 Championship Class regulations

The SACU Road Race committee has confirmed a decision to align with BSB regulations for 2019.

It concerns the Formula 600 class and we advise that “in order to align with BSB regulations, and those of other Clubs, the SACU will accept the new Kawasaki 636cc in the Formula 600 class”.

Please note that only the 2019 Kawasaki 636 model is accepted at this capacity.

Over boring of existing engines is still outwith the regulations and only 600 cc 4 cylinder 4 stroke or 675 cc 3 cylinder engines are acceptable.

G Dingwall

SACU Road Race Chairman
